World Conservation Congress

- » **First Time in the US.**
- » **Held every 4 years**
 - **2008 – Barcelona, Spain**
 - **2012 – Jeju Korea**
- » **10 Days**

The Congress has two main parts:

THE FORUM

Public events to
share and discuss
new ideas in
conservation

*Meet people,
exchange ideas
and learn*

THE MEMBERS' ASSEMBLY

A Global Environmental
Parliament

*IUCN Members pass
formal Resolutions
and
Recommendations*

VALUE ADD

- New Visitor /International (160 Countries)
- Access to great conservation science
- Asia Pacific Outreach / EWC (50 Schools)
- University of Hawaii (Online Courses in Conservation/STEM /High School)
- Youth Leadership Development– KUPU
- DOE – Youth Engagement
- Neighbor Island Excursions
- New Meeting in the Environment and Conservation Market

HOW DO I PARTICIPATE?

- 
- ☒ Engage
 - ☒ Immerse
 - ☒ Interact

IUCN

Six Commissions

- 1. Commission on Education and Communication (CEC)**
- 2. Commission on Environmental, Economic and Social Policy (CEESP)**
- 3. World Commission on Environmental Law (WCEL)**
- 4. Commission on Ecosystem Management (CEM)**
- 5. Species Survival Commission (SSC)**
- 6. World Commission on Protected Areas (WCPA)**

What happens at the Congress?

■ Opening and Closing of the Congress

IUCN Forum Events

Sept. 2-5

Workshops: Facilitated 2 hour workshops to introduce new solutions/technology/science

Knowledge Café: Dialogue of up to 12 people, often focused on creation of partnerships and finding joint ventures

Posters: Electronic posters on a multitude of subjects, author is present at a set time

Conservation Campus : Half or one-day skill building build sessions; endorsement by universities, may involve pre/post activities

Public Events

Sept. 2-10

Exhibits: Open to registered participants & public, showcase of successful conservation initiatives and solutions

Pavilions: Multi-room areas that host events, space to meet like-minded people and create partnerships, informal, creative presentation style symposia

Other Events

Aug. 28 – Sep. 10

Social Events: Pau hana, evening, or lunch-time, opportunity to network

Parallel Events: Concurrent events approved by the IUCN Congress, off-campus

Members' Assembly

The congress programme will be developed within the framework of the congress theme, outlined below, together with a selection of the proposals received.

Theme of the IUCN Congress 2016:

Planet at the crossroads

We live in a time of tremendous change, the nature and extent of which is the subject of intense debate around the world. At the heart of this debate is the clash of immediate human needs with their long-term impacts on the planet's capacity to support life.

With a timeframe of 15 years, the world has committed to deliver the Sustainable Development Goals – an ambitious agenda for improving human living conditions for all. There is a real sense of urgency in this call to action, as many believe there is a closing window of opportunity to effect meaningful change in Humanity's trajectory. Our future will be decided by the choices we make now.

The current debate is framed by two competing narratives. One is a pessimistic view of our future which claims that it is already too late to avoid catastrophe, and therefore we must now focus on survival and recovery. This leaves people in despair. The other is a stubborn optimism arguing that Humanity has faced and overcome many great challenges in the past and will continue to do so. This risks indifference and denial.

But there is a viable alternative approach – one that stresses that nature conservation and human progress are not mutually exclusive. Facing tremendous forces of transformation such

Planet at the Crossroads is an appropriate theme for IUCN World Conservation Congress in an incredible place and time to stimulate urgent actions and commitments to achieve health for our Island Earth. The Red List as the authoritative identifier of endangered species worldwide, are we human destined to be on this list? I look forward to the scientists and businesses taking their path at the Congress for a

Special Congress Excursions

Excursions

Applied Research for the Biological Control of Invasive Plants

An introduction to the U.S. Forest Service's research and current innovative approaches for biological control of invasive plants.

Hawaii (The Big Island)

\$10.00

Back from the Brink : Ahinahina (Kona)

Guided by researchers and conservation managers, participants will experience a stunning range of environments found on the Island of Hawaii.

Hawaii (The Big Island)

\$150.00

Back from the Brink: Ahinahina (Hilo)

Experience a full day at Hawaii Volcanoes National Park ending with evening eruption viewing

Hawaii (The Big Island)

\$250.00

Back from the Brink: Dry Forest

Spend a day exploring some of the last remnants of both the lowland and montane/sub-alpine dry forests.

Hawaii (The Big Island)

\$210.00

Back from the Brink: Hakalau Forest

Participants will have the opportunity to view endangered plants and birds while learning about the conservation challenges and successes of the last 30 years.

Hawaii (The Big Island)

\$250.00

Hawaii Volcanoes National Park - Kilauea Summit to Sea Adventure

Explore Hawaii Volcanoes National Park from summit to sea on this day hiking adventure.

Hawaii (The Big Island)

\$165.00
